

PT-TTS

Trailer Tracking System

The PT-TTS is a simple and cost effective solution for tracking the location of a mobile generator, load bank trailer, cargo trailer or other equipment. This unit will log the GPS location of the asset twice per day. This unit includes a tube-shaped, lithium internal battery that will last 2-3 years before being replaced.

Standard Unit Includes

- **PT-TTS Tracker** - Fully Configured & Scripted
- IP67 Sealed Outdoor Weatherproof Enclosure
- Internal 57Ah, 3.6V Lithium Ion Battery
- Cellular Carrier Activation
- GPS Location Tracking – Twice Per Day
- Over-The-Air Unit Configuration and Updates
- Geo Fencing Capabilities
- 3 Year Warranty

User Interface: Power Link

Power Link is the most versatile and comprehensive user interface on the market. It is designed for generator service organizations to monitor and track customer equipment and service technicians all in one place. All monitoring systems include a personalized application portal and provide extensive, customizable alerts and reports.
